

## Good Energy FIT sign up form

We know Britain can build a renewable energy future, and small-scale generation is vital to achieving this. We are here to help you make it happen.

But while it's great to talk about a positive future, we realise that ensuring it happens involves boring paperwork too. It's vital in fact. We've tried our best to keep this form simple, but there's no disguising the quantity of boxes to be filled in. It should only take about 15 minutes to complete, but we suggest you make yourself a cup of tea, perhaps even grab the biscuit tin, and find a comfy place to seat yourself before diving in.

You will also need:

- Your MCS Installer Certificate – it's light blue and should have been given to you by your installer.
- If you are already a Good Energy electricity customer you will need your account number.
- If you have more than one generator, please photocopy this form and provide details of any information that is specific to your further generator/s.
- Proof of ID (copy of your passport or drivers licence).
- Proof of ownership (copy of installer's invoice or sale agreement).

And one more thing, please use BLOCK capitals to ensure we can note your details correctly.

If you would like any assistance when completing the form, or have any questions, then please call our FIT team on 0845 456 1640. We're always happy to help.

### 1. FIT payments

We will pay you the Feed-in Tariff (FIT) for your total generation at a rate based on the technology type and size of your generator as published by Ofgem, the industry regulator. We will also pay you for the electricity you export. However, we can only pay the FIT to eligible generators, so please take care to provide all the information we need to ensure you can be correctly accredited. To deliver a quick and effective service that is simple for you, our FIT schemes will pay the Feed-in Tariff directly into your bank account.

### 2. Your details

Please enter the name and address of the owner of the generator below. We will use these details for correspondence.

<b>Title</b>	<b>First name</b>	<b>Surname</b>
<input type="text"/>	<input type="text"/>	<input type="text"/>
<b>Company (if applicable)</b>	<b>Company registration no.</b>	
<input type="text"/>	<input type="text"/>	
<b>Address</b>		
<input type="text"/>		
<input type="text"/>		
<b>Postcode</b>	<b>County</b>	
<input type="text"/>	<input type="text"/>	
<b>Email address</b>	<b>Daytime phone number</b>	
<input type="text"/>	<input type="text"/>	

**For internal use only.**

Scheme	Gen size	Est gen	Est exp	Exp type	EAC
HGN/HG/SG/OG					
Installed date	Gen FIT ID	FIT ID	ROC ID	Auth by	Date

**Gen Account ID**

**Partner code**

### 3. Payee details (if different from section 2)

Please enter the name of the individual or company who is to receive the FIT payments. This is usually the owner of the generator but a different recipient can be nominated.

<b>Title</b>	<b>First name</b>	<b>Surname</b>
<input type="text"/>	<input type="text"/>	<input type="text"/>
<b>Company (if applicable)</b>		
<input type="text"/>		

### 4. Address of generator

Please enter the address where the generator is located. If it is the same address as above, please tick the box and leave this section blank.

**Address**

  
  
**Postcode**

### 5. Your generator

Please enter your Microgeneration Certification Scheme (MCS) Installer Certificate Number below. You will find this at the top of the light blue certificate given to you by your installer which confirms that your generator is certified. If you have not received the MCS Certificate from your installer you need to contact them to request it. We can't register you for the FIT without it.

If your generator was installed **BEFORE 15th July 2009** and you do not have an MCS Installer Certificate Number then please contact us on 0845 456 1640.

**MCS** –  –

(example) **MCS-12345678-A**

We also need to know the technology type and size of your generator, as well as the date it was installed. This information can also be found on your MCS Certificate, or your installer can provide it.

Solar PV  Hydro  Wind  Anaerobic digestion  MicroCHP

If you are a Solar PV generator please indicate if your system is:

"Retrofit" (installed on an existing property) or;  
 "New build" (installed when the property was built)

Please tick the box that best describes the type of property that will be using the energy that you generate.

Domestic  Commercial  Farm  Industrial  
 Not for profit  School/education  Other

**What is the installed capacity of your generator?**

 kW

**When was your generator installed**

 DD  MM  YYYY

If you received a grant towards the cost of your renewable generator please include details of both the body that awarded it and the value of the grant you received.

Please ensure the details you give are accurate, as we are obliged to provide this information to Ofgem.

**Name of grant (i.e. Low Carbon Buildings Programme)**

**Total value of grant**

 £

## 6. Meter details

FIT payments will be based on the readings from your total generation meter. This is the meter that records how much energy your generator is producing. Please note, this will be a different meter to the one that measures the electricity you import from an electricity supplier. Please include the details of your total generation meter below.

Meter make

Meter model

Meter serial number

To mark the start of your FIT payments and the date that Good Energy becomes your FIT provider we need your initial total generation meter reading. This must be an accurate current meter reading, so please take it on the day you submit this form. If the information you provide is incorrect Ofgem may view your actions as fraudulent, delaying the processing of your sign up and affecting your FIT payments.

Total generation meter reading							Date of reading	
10k	1k	100k	10	1	.	/10	/10	DD/MM/YYYY

- You may also have an export meter installed to measure the units that you export to the electricity grid. This will be separate from the total generation meter which records all of the units you generate. If you think you have an export meter then please tick this box and complete section 7.

## 7. Export meter details

You only need to complete this section if you have an export meter installed at your property.

Export meter make

Export meter model

Export meter serial number

## 8. Installer Information

We may need to contact your installer to clarify some details about your generator. So that we can do this please enter the details of your installer below.

Installer company name

Contact name

Telephone number

## 9. Electricity supply details

To successfully register you for the FIT we also need to know your unique electricity supply number - it's normally in the top right hand corner of your electricity bill. Please enter this number as it appears on your bill into the boxes below. Take a look at the example if you need some help. If you can't find the number, please contact us and we will do our best to help.

S	01	234	567	
	12	345	6789	1011

S				

(Example)

- If your property and generator are "Off-Grid", meaning you are not connected to the electricity grid and do not buy any electricity from a supplier, please tick the box.

## 10. Sign up to Good Energy

We're so pleased you've chosen Good Energy to be your FIT supplier. But if you aren't already, we'd love you to become a Good Energy electricity customer too. We already support over 1500 generators just like you, all harnessing natural power from renewable sources. Selecting us to supply your home or business with electricity helps us encourage further small-scale renewable energy generation in this country. Currently more than one in 20 of our customers are generators so you'll be in excellent company.

And as the UK's only dedicated 100% renewable electricity supplier, you can be assured that we're as committed to the provision of clean, green power as the pioneering energy entrepreneurs we support. Together we can build a 100% renewable future for the country.

If you are already a Good Energy customer, simply tick the box below and enter your account number.

I am a Good Energy Customer, and my account number is:

If you are not already a Good Energy customer, please tick one or more of the boxes below.

- I would like to sign up to Good Energy (please complete section below).
- I would like more information on how to switch my electricity supply to Good Energy.
- I will be remaining with my current electricity supplier (which is not Good Energy).

## 11. Your supply address

If this is the same as section 2, please tick the box, leave this part blank and complete the "How would you like to pay?" questions below.

### House name or number

### Street name

### Town/city

### County

### Postcode

### How would you like to pay?

- Monthly Direct Debit     Direct Debit on receipt of quarterly bill     Cash or cheque on receipt of quarterly bill

### Approximately how much do you currently spend per month

If you choose to pay by monthly Direct Debit, please estimate below your annual consumption in kWh:

### Estimated annual consumption

Otherwise, the amount will be based on an estimate for your region and will be reviewed after 3 months. We will inform you of the amount in advance and give you 10 days notice before the first payment is taken.

## 12. Inspiring others

Small-scale renewable energy generation is vital to achieving a future that isn't reliant on fossil fuel and nuclear power, so we hope to inspire as many people as possible to get involved. We believe that your stories in your words are the best way to do this. If you would like to be part of spreading the Good Energy message, encouraging others to generate their own heat and power, please agree to the statement below and we will be in touch to gather some more details.

- I agree to allow Good Energy to use the statements and images that I may submit now or at a later date in Good Energy's marketing materials on the understanding that I can withdraw this consent at any time, and as such will no longer feature in any new marketing material.

## 13. Before you sign, please read and agree to these statements

- I confirm that all the generation produced by the generator detailed above is recorded using certified metering, and I understand that it is my responsibility to have the correct metering fitted at all times.
- I understand that this sign up form constitutes part of the contract held with Good Energy and I have 7 days once I have received Good Energy's FIT scheme terms and conditions to cancel this contract if I choose to.
- I confirm that I have the power to enter into, perform, and comply with all of the obligations under this contract, and realise that if this contract is incomplete and/or incorrectly completed this may invalidate the contract.
- I confirm that I will contact Good Energy in writing within 10 days of any changes to the information entered into the contract.
- I confirm that I have appointed Good Energy to act on the FIT and REGO\* registers on my behalf and will sign any required declarations to this effect. I authorise Ofgem to act on information provided by Good Energy and that Ofgem is entitled to assume that this information is accurate and reliable. I understand that any disputes that arise between Good Energy and I will be resolved between us. This arrangement will continue until Ofgem and Good Energy are told otherwise.
- I confirm that the information I have provided is correct and accurate, including details of any grants received towards the cost of the installation of my renewable generator.

\*REGOs show that the electricity you have generated is from a renewable source.

## Proof of identity and ownership

In order to register you as a FIT generator, we are required to ask for both proof of identity (copy of driving licence or passport) and proof of ownership of the installation. This can be a copy of your installer's invoice, sale and purchase agreement or commissioning certificate. But not your MCS certificate.

Please note that we only ask for copies of these documents and do not advise sending in original documents.

- I confirm that I have enclosed proof of identity.
- I confirm that I have enclosed proof of ownership for my installation.

## Only for non-domestic microgenerators owned and operated by a company

- I confirm that I have provided a company authorisation letter on company headed paper with a director's signature. This is to prove that I will be responsible for the administration of this contract.
- I confirm that the above information is correct and that I am authorised to sign the contract.

**Only for existing FIT generators transferring their FIT account from another supplier to Good Energy**

- I confirm that I appoint Good Energy to act as my new FIT Licensee for the MCS Installer Certificate Number entered on this form from the date below. Until I notify otherwise, from this point onwards, I give Good Energy permission to administer the FIT and REGO registers on my behalf.

**Only for customers signing up for Good Energy electricity supply**

- I confirm that the information I have provided is correct and that I am authorised to sign this contract for the supply of electricity to the above address.
- I confirm I have read and agree to Good Energy's terms and conditions and prices enclosed in the accompanying leaflet.
- I understand that I have signed a legally binding contract and that once this contract has been accepted by Good Energy I will be obliged to pay for electricity services supplied in accordance with the terms and conditions enclosed in the accompanying leaflet.
- I would like to receive information about other products and services from Good Energy.

**Name**

**Signature**

**Date**

**We would like to keep you in touch with issues related to Good Energy and climate change. Please tick the boxes below if you would like to receive:**

- Our email newsletter to keep up to date with issues related to Good Energy and developments in the renewables industry.
- Information about other products and services from Good Energy.
- And, if you are happy for us to share your details with carefully selected, like-minded organisations, to receive information from them about products and services that may be of interest to you.

**What happens next?**

Once you have completed your FIT sign up form please return it to us in the pre-paid envelope, to our freepost address Freepost RRAG-GRTB-ULXZ, Good Energy Ltd, Chippenham, SN15 1EE or by email to [fit@goodenergy.co.uk](mailto:fit@goodenergy.co.uk)

Good Energy has a range of FIT schemes and when we receive your sign up form we will identify the right one for you. We will then send you our terms and conditions and details of the next steps. In the meantime you can contact us on 0845 456 1640 or by e-mailing [fit@goodenergy.co.uk](mailto:fit@goodenergy.co.uk)

We are delighted that you are choosing Good Energy. Thanks to you Britain is another step closer to a 100% renewable future.

**Together we do this.**

**By signing below I agree to all statements I have confirmed above**
